

- ▶ ASSEMBLY: INDIA
- ▶ VARIANT: LOWER DECK

- ▶ RANGE: 120-150 KM
- ▶ BATTERY: LFP 12.8 kWh

- ▶ PAYLOAD: 570 KG
- ▶ MOTOR: 9.5 kW PMSM

GRADEABILITY: 26.5%
CLEARANCE: 220 MM

REDEFINING THE ELECTRIC CARGO EXPERIENCE

BUZZ

SMART ENERGY FOR SMARTER LOGISTICS

BUSINESS VALUE

ALTENER BUZZ Engineering delivers India's most reliable electric 3-wheeler, now in a low-profile deck configuration. Designed for heavy, bulky loads, the Lower Deck variant offers unmatched stability and loading ease.

MAXIMUM SAVINGS

Slash running costs by 50–60% vs diesel. Every delivery adds directly to your bottom line.

RELIABILITY

Active Cooling & Dual-speed gearbox reduces strain — runs cooler, longer, stronger.

GRADEABILITY

26.5% gradeability — best in segment. Carries full payload over flyovers and ramps.

RAPID CHARGE

80% charge in ~1.5 hrs. Achieve 2–3 delivery cycles per shift.

SAFE CHEMISTRY

LiFePO4 — thermally stable & non-combustible. Safest for Indian climate.

ZERO MAINT

No engine oil or clutch. Maintenance cost reduced by 70%.

THE LOWER DECK ADVANTAGE

LOW-PROFILE OPEN PLATFORM

Ultra-low bed height lowers the centre of gravity, preventing toppling of tall loads. Open access from all sides makes loading heavy appliances effortless.

Deck Length **1660 mm**

Deck Width **1450 mm**

Payload **570 kg**

Clearance **220 mm**

WATER CANS

ENGINEERED FOR PERFORMANCE

BUILT FOR THE GRIND | DESIGNED FOR THE DRIVER

POWERTRAIN & SMART TECH

PMSM MOTOR

9kW high-efficiency motor with IP67 rating.

LFP BATTERY

8kWh - 12kWh Safe, long-lasting technology.

7" TOUCH HMI

Branded welcome display and interface.

FLEET MANAGER

Real-time tracking & diagnostics.

REGEN BRAKING

Recovers energy to extend driving range.

CONTROL & SAFETY

DISC BRAKES

Superior stopping power and safety.

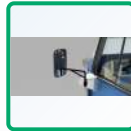

PARKING BRAKE

Reminder for safe parking on slopes.

220 MM CLEARANCE

Best-in-class for rough roads.

WIDE MIRRORS

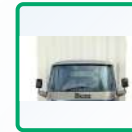

Enhanced visibility in traffic.

DRIVE MODE SWITCH

Easy toggle for Eco, Drive, Reverse.

ERGONOMICS

WINDSHIELD

Clear visibility and protection.

HANDLE CONTROLS

Economically easy accessible switches.

SMART STORAGE

Ambient lighting & charging ports.

LED HEADLAMPS

Bright, low-energy illumination.

TECHNICAL SPECIFICATIONS

BATTERY & CHARGING

Battery Type	LiFePO4 (LFP)
Capacity	11.68 – 12.8 kWh
Charger	Onboard 25A
Charge Time	~1.5 hrs (0–80%)
Connector	CEE Socket

WEIGHT

Gross Weight	1,100 kg
Kerb Weight	530 kg
Payload	570 kg

SAFETY & SMART TECH

Display	7.0" Touch LCD
Connectivity	4G LTE + GNSS
Start System	Immobilizer
Rev. Camera	Yes · 4.3" Screen
GPS Tracking	Real-time

PERFORMANCE

Speed (Eco)	25 - 27 km/h
Speed (Boost)	45 - 47 km/h
Range	120 - 150 km
Drive Modes	Eco / Boost / Rev

MOTOR & DRIVETRAIN

Motor Type	PMSM, IP67
Peak Power	9.5 kW
Transmission	2-Speed Gearbox
Gear Ratios	14.96 / 8.06

SUSPENSION & BRAKING

Front Susp.	Twin Shock + Springs
Rear Susp.	Rubber Damping + Shocks
Front Brake	Disc
Rear Brake	Drum
Regen Braking	Yes

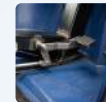

MECHANICAL

Robust Chassis
High-strength steel construction.

Dual Shocks
Superb stability.

Mechanical Pedals
Reliable backup.

Disc Brakes
Superior stopping.

ADVANCED FLEET MANAGEMENT SUITE

- Live GPS Tracking
- Geofencing Alerts
- Remote Diagnostics
- OTA Software Updates
- Battery Health Monitoring
- Driver Behaviour Analysis
- Trip History & Logs
- Anti-Theft Immobilization
- Idle Time Reports

WHY BUZZ WINS

- ✓ Only 2-Speed in segment
- ✓ IP67 sealed motor
- ✓ 26.5% gradeability
- ✓ Hill Hold assist
- ✓ Auto power Modes
- ✓ Active Controller Cooling
- ✓ Reverse camera standard
- ✓ LFP — safest chemistry
- ✓ Real-time GPS
- ✓ Gearless Operated Speed
